**Professional, hand-painted
children's murals**

The Artist

Shannon has been painting and selling art for almost 20 years. For eight of these, Shannon has enjoyed adorning Calgary homes with hand-painted children's murals.

Specializing in animated murals, she has been personally commended by the Disney representative in Canada for her incredible accuracy and ability to bring any character to life.

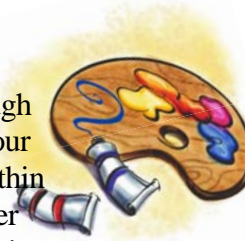

The Design

The starting point for your design might originate from a favourite scene out of a storybook, a colourful movie character or from a childhood story passed down through the generations. Of course, input from the smallest client is always encouraged. A mural with a couple of characters can be completed in less than eight hours.

The Paint

The Hulk will come crashing through your walls in a semi-gloss, low odour latex paint. It is dry to the touch within one hour and washable 30 days after completion. Colours are mixed on site and special care is taken to coordinate them with furniture, curtains and accessories.

The Cost

The cost of bringing fairies and dragons to life is comparable to having the room painted or wallpapered with a border. Pricing is per character and includes the perfect complementary scenery.

Extra background scenery is priced according to the complexity of the scene. Clients are provided with a written quote before mural work is started. Please see the website for current prices.

The Care

All children's rooms are special to the little ones living in them. You won't have to move any items out of the room during painting. Safety precautions are taken to protect goldfish, special stuffed teddies as well as your carpet and furniture.

The Company

Creative Painting by Design is licensed by the City of Calgary and has been in business since 2001. The company is also fully insured.
